EDUCATION

MIT Academy of Engineering, Pune

B.Tech Information Technology

2019 – 2023

8.98 CGPA

Army Public School Akhnoor

XII CBSE PCM with Computer

2017 – 2019

84%

Army Public School Akhnoor

X CBSE General

2016 - 2017

8.6 CGPA

SKILLS

Languages

C/C++, Java, & JavaScript

Frameworks

Angular, Express, & Spring boot

Database

MySQL, MongoDB (SQL, NoSQL)

Misc.

Git, GitHub

Soft Skills

Leadership, Project / Program

Management, Communication

INDUSTRY EXPERIENCE

Silfra Technologies

05/2022 – Present

Remote work(work from home)

- Interned As Full Stack Web Developer(MERN)
- Published Npm react library react-noticefaq which render template for blogging website for use in reactjs
- Published Npm vue library vue-noticefaq which render template for blogging website for use in vuejs

Codekul Pvt Lmd

05/2021 – 08/2021

Pune Maharashtra

- Interned As Full Stack Java Developer
- Working on **Fullstack Java Based Application based on Java spring framework for web-services.**
- Axios HTTP library was used for calling Web-services
- Backend server side architecture was Integrated with React.js Based client-side for front-end Rendering and interactions

CODING PROFILE LINK

- Github : [Amit-Github](#)
- Linkedin : [Amit-Linkedin](#)
- Codechef : [Amit-Codechef](#)
- Leetcode : [Amit-Leetcode](#)
- GeeksforGeeks : [Amit-GeeksForGeeks](#)
- CodeForces : [Amit-Codeforces](#)

CERTIFICATIONS

- Oracle Cloud Infrastructure Certified Associate
- Hackerrank Problem Solving
- Hackerrank Java Certified
- Hackerrank Javascript Certified
- **Python** Programming for Everybody\

ACHIEVEMENTS

- Codechef 4 star Rated Programmer
- Global Rank 48 in CodeSpring Organised by Mit Alandi
- Global Rank 623 in codechef Staters Division 2
- Solved 1000+ DSA question
- Leetcode BiWeekly contest 64 Rank 110

PROJECTS

OS Algorithm Visualizer

[Github/link](#)

- Operating System Algorithm Visualizer to visualize Various Algorithm Used in Operating system
- Features:
 - Algorithm – Page replacement,cpu scheduling
 - Log in ,sign up,contact us
- Tech Stack:
 - Angular , Nodejs ,Express , Mongoddb
 - Emails, & passport.js

Sementic Video Clipper

[Github/link](#)

- Using Sementic Video cipper we Can automatically clip out the silence Part from video
- We can also clip out the control word from video
- It is used to remove the irrelevant content from lecture recording of online classes like(silence and attendance)
- Tech Stack -> Python 3,moviepy & Vosk Api

Mess Finder

[Github/Link](#)

- The **Innovative app to find the nearest messes near the collage campus**
- Comes with two types of functionality user and administrator
- Display Nearest Messes with all menu and prices
- Tech Stack:
 - Java,nodemailer,mysql

RELEVANT COURSES

- Data Structure and Algorithm
- Object-Oriented Programming
- Database Management System
- Advance Java
- Data Science
- Operating System, Computer Network

INTERESTS

- Web App Development
- Software Development
- Data Science
- Competitive Programming
